PROFILE

▶ SECURITY

In today's troubled environment, business needs to consider its exposure not only to theft, vandalism and unlawful entry but also to the potential threat of international terrorism.

Risk Control Group Risk Management Solutions will review current security service, security contractors and recruitment and managing of security officers and watchmen.

As a variation to the above, RCG in co-operation with our partner risk managers and security consultancy and service providers will be able to provide assistance in counter terrorist measures.

SERVICE

Effective security measures are today as critical as any other component to constructing, operating and maintaining a successful commercial venture.

RCG has international experience on advising clients on the most suitable and cost effective controls required to minimize security risk.

All aspects of industrial, commercial and retail risk may require Assessing in physical building and perimeter plotting, active and passive security systems, key control areas, manning, training, equipment exposures.

All aspects of intrusion, sabotage, arson, extortion, fraud, espionage, pilfering, etc., can be investigated and counter measures submitted.

CRC include specialist services:

- Investigations
- Surveillance
- Covert Operations
- Counter Eavesdropping
- VIP and Executive Protection
- Threat Analysis
- Hands-on Security Risk Management
- Moral Hazard Studies
